

UF Diabetes Institute

Working together for a diabetes-free world

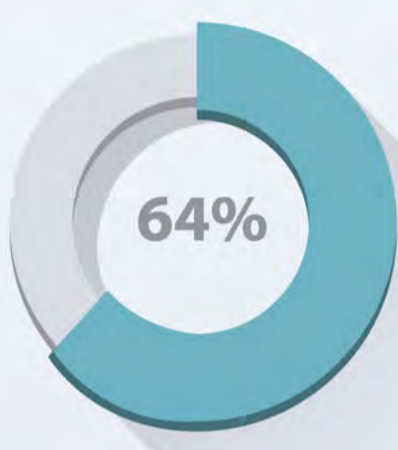

U.S. HEALTH CARE DOLLARS IS SPENT BY SOMEONE DIAGNOSED WITH TYPE 1 OR TYPE 2 DIABETES.

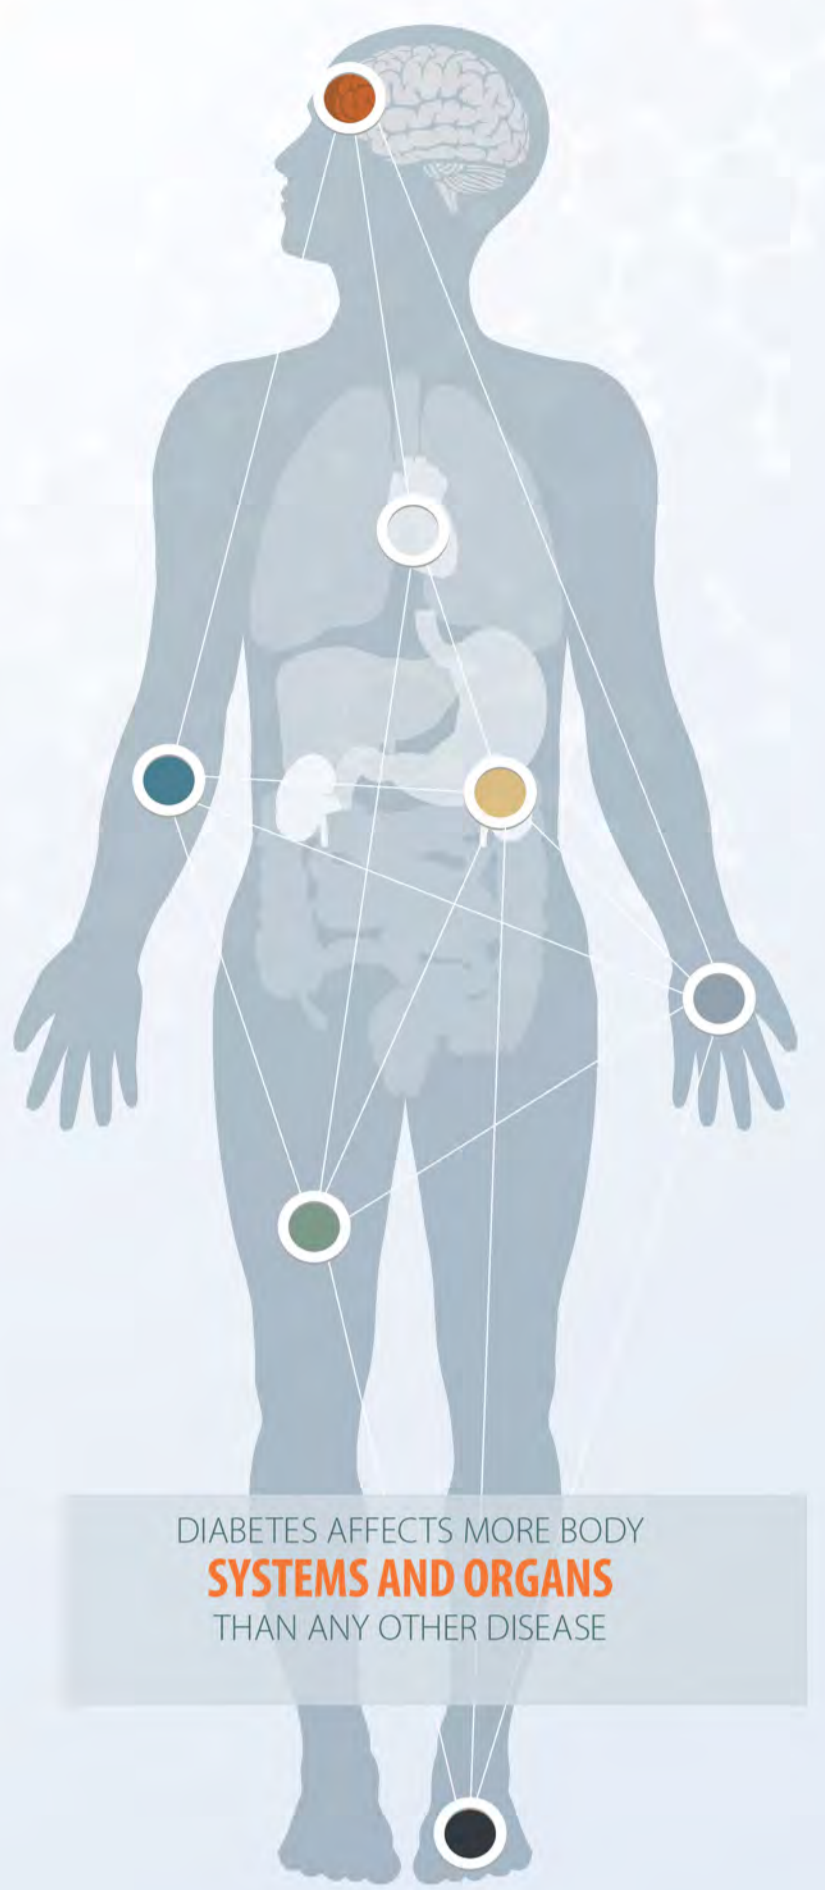

THE RATES OF DIAGNOSED DIABETES BY RACE IN THE U.S.

MINORITIES HAVE **DOUBLE THE PREVALENCE OF DIABETES*

A 2010 study by Novo Nordisk, one of the leading producers of insulin medications, predicted a **64 percent increase in the number of Americans living with diabetes** — diagnosed and undiagnosed — by 2025.

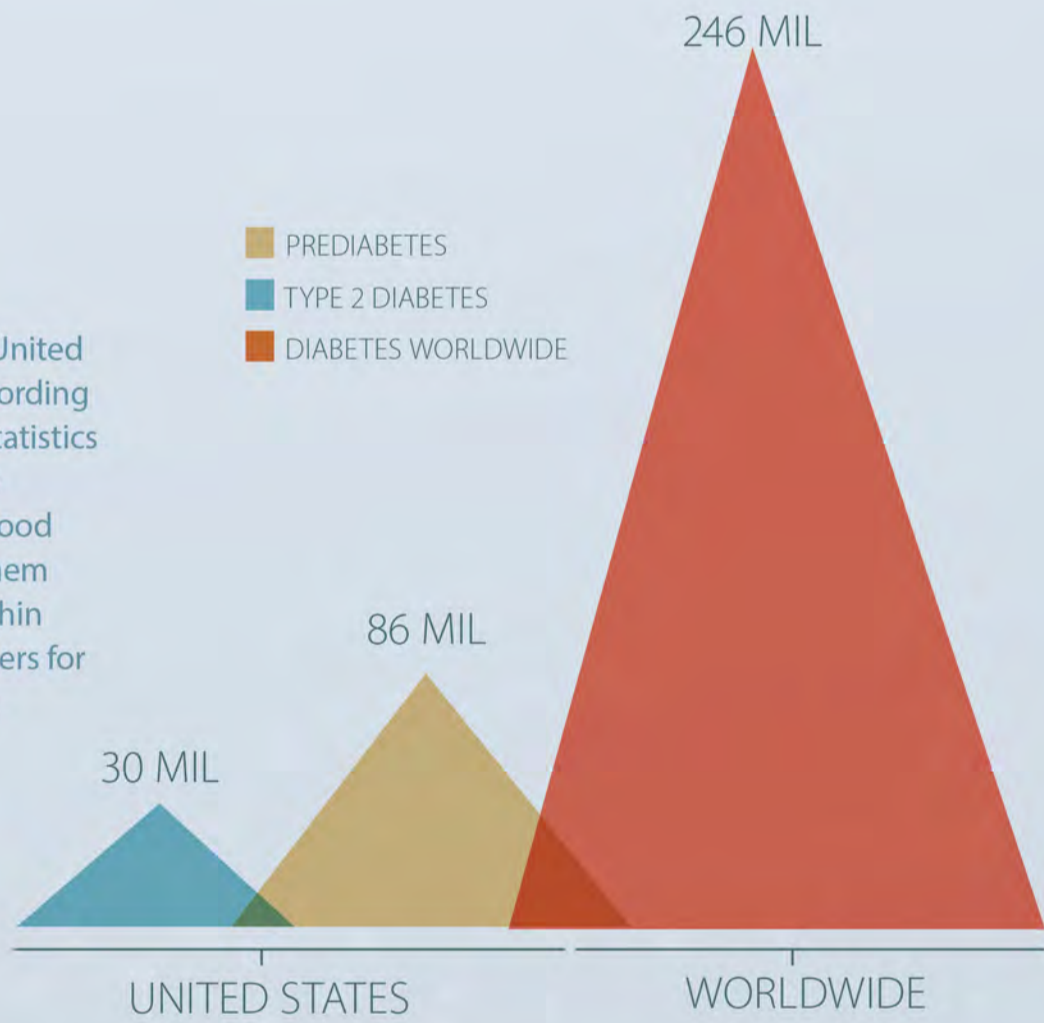

DIABETES AFFECTS MORE BODY **SYSTEMS AND ORGANS** THAN ANY OTHER DISEASE

PEOPLE WITH DIABETES

Nearly 30 million people in the United States have Type 2 diabetes, according to the 2014 National Diabetes Statistics Report. Another 86 million have prediabetes, with its elevated blood sugar, and 15 to 30 percent of them will develop Type 2 diabetes within five years, according to the Centers for Disease Control and Prevention.
